

IDBM Pro 2012

Prerequisites and Selection Criteria

Prerequisites for participating in IDBM Pro are a suitable academic degree, three years of work experience or corresponding knowledge and competence.

You have the ability to participate in intensive work and look forward to multidisciplinary collaboration.

The training is conducted in English.

The selection criteria are:

- the applicants suitability for the training: work experience, motivation and educational background
- support by the background organization and the applicant's thorough ability to participate in the program
- forming of a working and committed body of participants
